

Program

program_id	program_name	program_credits	program_description
PROG_DE	Data Engineering	400	Two-year program focused on databases, data pipelines, analytics, and modern data platforms.
PROG_UX	UX Design	400	Two-year program focused on user research, interaction design, prototyping, and design systems.
PROG_JAVA	Java Developer	400	Two-year program focused on backend development with Java, OOP, APIs, and enterprise application development.

course					
course_id	program_id	course_code	course_name	course_credits	course_description
C_DE_01	PROG_DE	DE101	Introduction to Data Engineering	50	Fundamentals of data engineering, including data pipelines, storage concepts, and basic SQL.
C_DE_02	PROG_DE	DE201	Databases and SQL	75	Relational database design, normalization, and advanced SQL querying.
C_DE_03	PROG_DE	DE301	Data Pipelines and ETL	75	Design and implementation of ETL pipelines using modern data engineering tools.
C_UX_01	PROG_UX	UX101	User Experience Fundamentals	50	Core principles of user-centered design, usability, and interaction design.
C_UX_02	PROG_UX	UX201	Prototyping and Design Systems	75	Hands-on prototyping, wireframing, and building scalable design systems.
C_JAVA_01	PROG_JAVA	JAVA101	Java Programming Basics	50	Introduction to Java programming, syntax, and object-oriented concepts.
C_JAVA_02	PROG_JAVA	JAVA201	Object-Oriented Design in Java	75	Advanced object-oriented programming, design patterns, and best practices in Java.
C_ST_01	NULL	ST001	Agile Project Methods	25	Standalone course covering agile methods, teamwork, and iterative project delivery.
